the Virtual Salad Bar

A modern update of the beloved Salad Bar

If you are like us, going to a Salad Bar just does not have that same healthy vibe that it used to. We all love salads, but miss having those 2 or 3 extra favorites piled on to make it perfect. Picking your favorite toppings from a Salad Bar was always fun and much easier than trying to make at home.

Especially if you are the only one at home that likes it.

We can all agree that it is the Dressing that takes the Salad to the next level. We make every single Dressing from scratch, using our own recipes and only the best ingredients possible. There are NO preservatives and NO corn syrup in anything!

We have streamlined the ordering process and the kitchen so you can get your perfect Salad in as little time as possible.
